SUBJECT INDEX

abbreviations used in patent documentation	15(1) 35
about patent classification	15(4) 217
activity in Bulgarian office	15(4) 221
adopting post-grant revocation procedure in China	15(4) 231
amendments to the Chinese patent law	15(4) 230
analysis of national filings at the EPO	15(4) 203
Annual Report 1992 of the EPO	15(4) 251
automation in Bulgarian trademark activities	15(4) 225
automation in the Bulgarian patent office	15(4) 220
automation in the Chinese patent office	15(1) 12
BACON database	15(1) 6
basic structure of the IPC, problems of	15(4) 217
biological inventions, patents for in the European Communities	15(2) 77
biological materials, ownership of	15(4) 199
biotechnology patents filed in India	15(3) 167
biotechnology patents in India, patenting activity of	15(3) 165
Bulgarian electronic document processing systems (EDPS)	15(4) 225
CD-ROM collections in Polish office	15(2) 96
CD-ROM Jukeboxes - use in Local Area Networks	15(2) 75
CD-ROM networking in German patent information centre	15(3) 158
CD-ROM products of the Chinese patent office	15(3) 150
CD-ROM publications of Japanese patent and utility model applications	15(4) 237
CD-ROM statistics in German patent information centre	15(3) 162
Centre for Advanced Study and Research on Intellectual Property (CASRIP)	15(3) 215
Chinese office information services to public	15(1) 14
Chinese Patent Application Management System (CPAMS)	15(1) 12
Chinese Patent Information System (CIPIS)	15(1) 12 & 15(2) 87

Chinese patent law, amendments to	15(4) 230
Chinese patent law, revision of	15(2) 118
Chinese patent retrieval system (CPRS)	15(2) 88
classification sets of US patent documents on CD-ROM	15(1) 42
client/server process in networking	15(2) 76
comparative analysis of national filings at the EPO	15(4) 203
comparison of EP applications in 1989 with national GDPs	15(4) 208
completing a search online in the EPO databases	15(4) 212
compulsory licence in China, modifying conditions for	15(4) 231
computer equipment in the Chinese office	15(1) 13
Denmark, new publication system	15(4) 254
Derwent databases on STN	15(1) 43
Derwent World Patent Index Markush (WPIM)	15(3) 139
Derwent WPI database	15(1) 5
Derwents Patents Preview	15(2) 117
design factors of generic structure retrieval system	15(3) 137
development tendencies of industrial property in Hungary	15(2) 104
developments in Japanese Patent Office	15(4) 237
DIALOG Patfull database	15(4) 249
Directive on Legal Protection for Biotechnological Inventions - European Community's proposal	15(4) 202
EASY - Electronic Application System	15(2) 64
EASY development plans and schedules	15(2) 70
effects of CD-ROM products on online databases	15(1) 9
Electronic Application System (EASY)	15(2) 64
electronic application system for the USPTO	15(2) 63
Electronic databases of Research Publications International (RPI)	15(2) 72
enhancing the patent work of enterprises in China	15(1) 18

EP applications, trends of national share in 15(4) 208

EPIDOS Register file 15(4) 249

EPO Annual Report 1992 15(4) 251

EPO CD-ROM products (ESPACE) 15(1) 7

EPO experimental automated research system 15(3) 133

EPO patent information 15(4) 249

EPODOC database 15(1) 8

EPOQUE 15(1) 8

EPOS database, saving words and expressions in 15(4) 211

equipment of German patent information centre 15(3) 157

ESPACE series of CD-ROMs 15(1) 7

"Euro-Direct Route" and "Euro-PCT Route" 15(4) 203

European Community's draft directive on legal protection for biotechnological inventions 15(2) 79

European Community's proposed "Directive on Legal Protection for Biotechnological Inventions" 15(4) 202

European patent filings 1985-1990 15(4) 203

exclusion of plant and animal varieties (EPO) 15(2) 78

expanding scope of protection in China 15(4) 230

experimental automated search system at the EPO 15(3) 133

explanation of abbreviations used in patent documentation 15(1) 35

extending patent protection in China to product obtained by practising a process 15(4) 231

faxing of patent documents directly from a PC 15(1) 43

First Page database 15(1) 6

French and foreign firms holding French supplementary protection certificates 15(2) 85

further development of paperless system of JPO 15(4) 240

future automation plans of the Chinese office 15(1) 14

future developments in Bulgarian trademark automation 15(4) 227

Generic Chemical Structures Project at Sheffield University 15(3) 135

German patent information centre 15(3) 156

Glossary of terms concerning industrial property information and documentation 15(1) 21

Harvard Mouse application at EPO 15(2) 77

human genes, patents for 15(4) 199

human genome, patenting 15(4) 200

Human Genome Project (HGP) 15(4) 200

Hungarian industrial property protection policy 15(2) 103

Hungarian Patent Information Centre 15(2) 107

Hungarian patent information policy 15(2) 103, 113

Hungarian patent office publications 15(2) 108

HUNPADOC - Hungarian bibliographic database 15(2) 109

illustrations of different types of patent families 15(1) 38

images introduced into Derwent WPI database 15(4) 252

INCOM CD-ROM 15(2) 75

industrial designs in Russian law 15(3) 153

industrial property information and documentation, glossary of terms 15(1) 21

industrial property protection policy in Hungary 15(2) 103

Industrial Property Training Institute in Prague 15(1) 16

information service facilities in German patent information centre 15(3) 161

introducing domestic right of priority in China 15(4) 231

introduction of images into Derwent WPI database 15(4) 252

inventions and utility models in Russian law 15(3) 153

inventions contrary to morality 15(2) 77

IPC:CLASS, development of in Hungary 15(2) 111

Is national patenting policy outmoded in Europe? 15(4) 193

Japanese patent and utility model applications on CD-ROM 15(4) 237

Japanese Patent Office, developments in 15(4) 237

Japanese patents on CD-ROM	15(4) 251
jukeboxes for CD-ROMs in German patent information centre	15(3) 160
legal protection for biotechnological inventions, draft directive by the European Community	15(2) 79
legal protection for databases	15(4) 201
legal rights of Russian law	15(3) 154
Local Area Network (LAN) with CD-ROM integration	15(2) 75
Local Area Networks using CD-ROM Jukeboxes	15(2) 75
long-term IPC Revision Policy	15(4) 191
Markush-Darc generic structures system	15(3) 139
MARPAT system	15(3) 139
MICROPATENT "Who Invented What 1992" CD-ROM	15(3) 175
MICROPATENT Patent Search - searchable front page information on PCT applications	15(3) 175
missing patents at the USPTO, survey of	15(3) 147
mixed-mode CD-ROM in Japan	15(4) 237
modifying conditions for compulsory licence in China	15(4) 231
national and European filings	15(4) 193
national trends in patent statistics	15(4) 205
need for national offices in Europe	15(4) 193
network version of PATSOFT	15(2) 75
new Netherlands patent law	15(2) 118
new publication system in Denmark	15(4) 254
novelty of ranges of values in EP applications	15(2) 82
OG/PLUS - electronic edition of US Official Gazette	15(2) 72
online databases, effects of CD-ROMs on	15(1) 9
online delivery system at the JPO	15(4) 241
online request for public inspection at the JPO	15(4) 242
opposition, revocation and infringement arrangements in Russian law	15(3) 155

ORBIT PowerSearch capability	15(3) 171
ORBIT's PowerSearch software	15(4) 249
organisation and background of CASRIP	15(4) 215
ownership of biological materials	15(4) 199
PAJ (English language abstracts of Japanese patents)	15(1) 6
paperless system of JPO, further development of	15(4) 240
patent abstracts in English (ABSE) database of Chinese office	15(1) 13
patent automation development objectives in Bulgarian office	15(4) 225
patent databases of the Polish office	15(2) 95
patent documents published by industrial property offices	15(1) 36
patent families, different types of	15(1) 38
patent information centre in Germany	15(3) 156
patent information products from Research Publications International	15(2) 72
Patent law of the Russian Federation	15(3) 153
patent protection options in Europe	15(4) 196
patent statistics national trends in	15(4) 205
patent statistics, relevance of	15(4) 204
patenting activity of biotechnology patents in India	15(3) 165
patenting by multi-nationals in India	15(3) 166
patenting the human genome	15(4) 200
patents for biological inventions in the European Communities	15(2) 77
patents for human genes	15(4) 199
PatentScan - US patent database on CD-ROM	15(2) 73
PatentView Backfile	15(2) 73
PATSOFT in network version	15(2) 75
PCT system	15(4) 197
plant and animal varieties, exclusion of in the EPO	15(2) 78

Polish office CD-ROM collections 15(2) 96

Polish office patent databases 15(2) 95

Polish patent information policy 15(2) 89

Polish patent office document collections 15(2) 89

Polish patent office publications 15(2) 99

possible restructuring of IPC to facet system 15(4) 218

post-grant revocation procedure adopted in China 15(4) 231

Prague Industrial Property Training Institute 15(1) 16

present automation in field of inventions in Bulgarian office 15(4) 223

priority date in Russian law 15(3) 154

problems of basic structure of the IPC 15(4) 217

procedure from application to grant in Russian law 15(3) 154

production of a common search database by EPO, USPTO and JPO 15(1) 6

prolonging duration of Chinese patent 15(4) 230

published EP applications by filing year, route and country 15(4) 206

published EP applications, by filing year and route 15(4) 206

ranges of values, novelty of in EP applications 15(2) 82

Rapid Patent Patent Scan CD-ROM 15(4) 253

relevance of patent statistics 15(4) 204
